Besides promoting your books assiduously on-line, there are a number of other methods that may allow you to sell extra books.

One is to present something away free of charge along with your guide, reminiscent of a helpful bonus item. Or bundle a number of ebooks under one value, which lowers the worth for each book in the event that they have been offered separately.

An effective method for determining a value is to send out a survey to your current customers. If these prospects have already purchased an e-book from you, ask for their opinion in terms of price. Do this by making a sales page for the new ebook, but don't embody a worth on that page. As an alternative, add a lot of links to survey questions that ask pointed questions to help you in assigning a value to your ebook.

One other technique is to check out costs by making a number of duplicate gross sales pages with completely different costs on each page. Make certain your sales copy is strictly the similar on every web page, and consists of your selling-deal with sentence. Then figure out for each page the conversion ratio between visitors to your website and sales of your book. This can let you know what your optimum worth is.

Finally, should you've written a e-book that solves a drawback or presents a new method, your e book will bring in each traffic and profits.
