An efficient approach for determining a worth is to ship out a survey to your present customers. If these prospects have already bought an e-book from you, ask for his or her opinion when it comes to price. Do this by making a gross sales page for the new e-book, but don't embrace a price on that page. As an alternative, add quite a few hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another technique is to check out prices by making a number of duplicate gross sales pages with different costs on every page. Ensure that your gross sales copy is exactly the identical on every web page, and consists of your selling-deal with sentence. Then determine for every web page the conversion ratio between visitors to your website and gross sales of your book. This will let you know what your optimum worth is.

In the end, for those who've written a ebook that solves a downside or presents a new approach, your guide will bring in each traffic and profits.
