In addition to promoting your books assiduously on-line, there are a number of other strategies that may help you sell extra books.

One is to give one thing away at no cost along with your e book, similar to a helpful bonus item. Or bundle several ebooks under one price, which lowers the value for each ebook if they have been sold separately.

An efficient approach for figuring out a price is to ship out a survey to your present customers. If these prospects have already bought an ebook from you, ask for their opinion in terms of price. Do

this by creating a sales page for the brand new book, but don't include a worth on that page. As a substitute, add a lot of hyperlinks to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

One other strategy is to test out prices by creating a variety of duplicate gross sales pages with completely different prices on each page. Be certain that your gross sales copy is precisely the same on each page, and includes your selling-handle sentence. Then figure out for each page the conversion ratio between guests to your website and gross sales of your book. It will tell you what your optimum value is.

Ultimately, if you happen to've written a ebook that solves a downside or presents a brand new method, your e-book will usher in each site visitors and profits. So you should definitely write that promoting-deal with sentence that sums up what drawback your e-book solves and what the advantages of your 690 e book shall be to the purchasers who purchase it. And then watch your market come to you!
